

Welcome to the BC3 ONE BUTTON STUDIO!

TO BEGIN:

Insert a USB Flash Drive into the One Button Studio port.
(The studio lights will automatically turn on!)

Select your project type:

Video with
Chroma Key

Video with
Standard Studio Lighting

Video with
Projected Presentation

Flip the metal switch on the
ReflectMedia box:

Left for
GREEN
filter.

Right for
BLUE
filter.

Press the silver button to
START the recording.
(Only press one time!)

Quickly get into place!

5 ... 4 ... 3 ... 2 ... 1
ACTION!

Flip the metal switch on the
ReflectMedia box back to
center position to turn off the
light filter.

When finished, return to the
podium and push the silver
button to **STOP** the recording.
(Only press one time!)

1. *** YOU MUST DO THIS STEP FIRST! ***
Turn on the projector by
pressing the 'Power' button
one time on the remote
control.
2. Log-on to the Presentation PC
(on the left).
3. Launch your PowerPoint or
other Digital Presentation from
a flash drive or the BC3
network.
4. Pick up the 'Clicker' and
practice advancing your slides.

1. Turn off the projector by
pressing the 'Power' button
two times on the remote
control.
2. Place the 'Clicker' back on the
podium.
3. Close your presentation and
log-off of the Presentation PC.

After the file saves, remove the flash drive.
(The studio lights will automatically turn off!)

THANK YOU AND PLEASE COME AGAIN!
